

FACILITY ARMOR

Dirt Adds Up...

See what can get tracked into your building!

- .02 ounces per person per day
- 250 days per year
- 5 ounces per person per year

People	100	500	1,000
Pounds of Dirt	31	156	312
Cost to Remove	\$15,500	\$78,000	\$156,000

Industry statistics show it costs over \$600 to remove just one pound of dirt from your facility! Vacuuming, mopping, dusting, scrubbing, stripping and refinishing floors, it all adds up. It's easy to say, "just use some matting to stop the dirt before it gets in your facility."

The problem is not all matting is up to the task. It doesn't trap soil, absorb moisture, or retain a level of appearance that is worthy of your facility. It's time to put Facility Armor matting to work for you - it's a high-performance system that can help maintain appearance levels, enhance safety, and lower your total cost of cleaning. Your Facility Armor Sales Consultant is here to walk you through it!
